LINE

A Creative Home Furnishings Design

What happens when you take mid century modern and give it a contemporary West Coast look?

Our Tangent Line.

Created exclusively by us and handcrafted to fit your home, its clean and spare design aesthetic with a slight asymmetry evokes the Pacific Rim's Asian influences.

Reflective of the superior construction of this line, it is built in solid western maple and all drawers have dovetail joints for strength with full extension glides that enable the drawers to completely extend out. Further enhancing the uncluttered look is the use of cut out scalloped pulls, and wide drawers that are flush to the front face.

To ensure that this collection meets your needs the Tangent pieces are all available in a wide range of configurations and sizes including condo sizes.

The Tangent Trestle Table (shown at right) even has a 20 inch wide self storing leaf.

Additionally there is a selection of stains and metal handles to ensure that the pieces perfectly suit your decor.

Within this line, we also have the Versa series, which is slightly smaller in scale and lighter in look: ideal for condo living. The Versa and Tangent pieces look great paired together in a room.

We can build to fit your needs

All our furniture is Made to Order just for You, so you are able to tailor the Tangent Line to fit your needs.

Some examples of what can be customized:

- Dimensions to fit your space
- Configuration of drawers & shelving
- Choice of:
 - Solid doors (3 designs) or glass panels
 - Soft close drawer glides
 - Extra table leaves
 - Hardware options
 - Stain colour
- Add cabling or ventilation cutouts in units
- Even make design modifications!

An added benefit is that we use low VOC adhesives, stain and lacquer, to keep your home healthier. This results in fewer toxins in your home and furniture with a harder, richer looking finish that is also more scuff resistant.
